

Heavy Haul

U.S.A.

CANADA

MEXICO

Buchanan Hauling & Rigging, Inc., has a wide variety of Heavy Haul specialized trailers to service your transportation needs and requirements. We can handle your everyday machinery, all the way up to the most specialized 160,000 lbs. shipment. We pride ourselves in our top notch drivers and state of the art equipment. Our drivers are not only required to uphold all Department of Transportation and State regulations, but also have to uphold Buchanan's high safety and securement standards.

Over the past two years, Buchanan Hauling & Rigging, Inc., has purchased over 20 specialized trailers to help service the rapidly growing needs of our customers. The average age of our specialized trailer fleet is less than 24 months. We are committed to having the best equipment and safest drivers hauling our customer's freight.

Buchanan Heavy Haul is dedicated to go above and beyond our customers expectations. Our dispatch center has the experience and knowledge to provide you with a total turn-key operation. From start to finish, we handle your specialized shipment with the professionalism and direct attention it demands. Our Heavy Haul Department has the resources to provide numerous services such as tear down, assembly, crane/rigging, as well as transportation. From our in-house permit/routing personnel, to our 24/7 dispatch center, to our driver/shipment tracking system, you can make certain that your shipment will be handled the professional way, the Buchanan Hauling & Rigging way.
